Is Siblings & Company Preschool The Right Fit For Your Child?

o We are focused solely on Early Childhood Education and developing the youth of the program.

o Our curriculum consists of academic milestones, social and emotional skills, challenging gross motor activities and music and movement.

o One inclusive tuition of $230/week for 10 hours or $250/week for 10+ for preschool and wrap around care.

o Minimal holiday and inclement weather closings.

o Children are provided 3 meals a day: Breakfast, lunch and afternoon snack.

o Structured learning environment with developmentally appropriate activities.

o A place that encourages learning, curiosity, and exploration.

o A place of comfort and security for the family and children

o Licensed by the DCFS.

What Are Parents Saying?

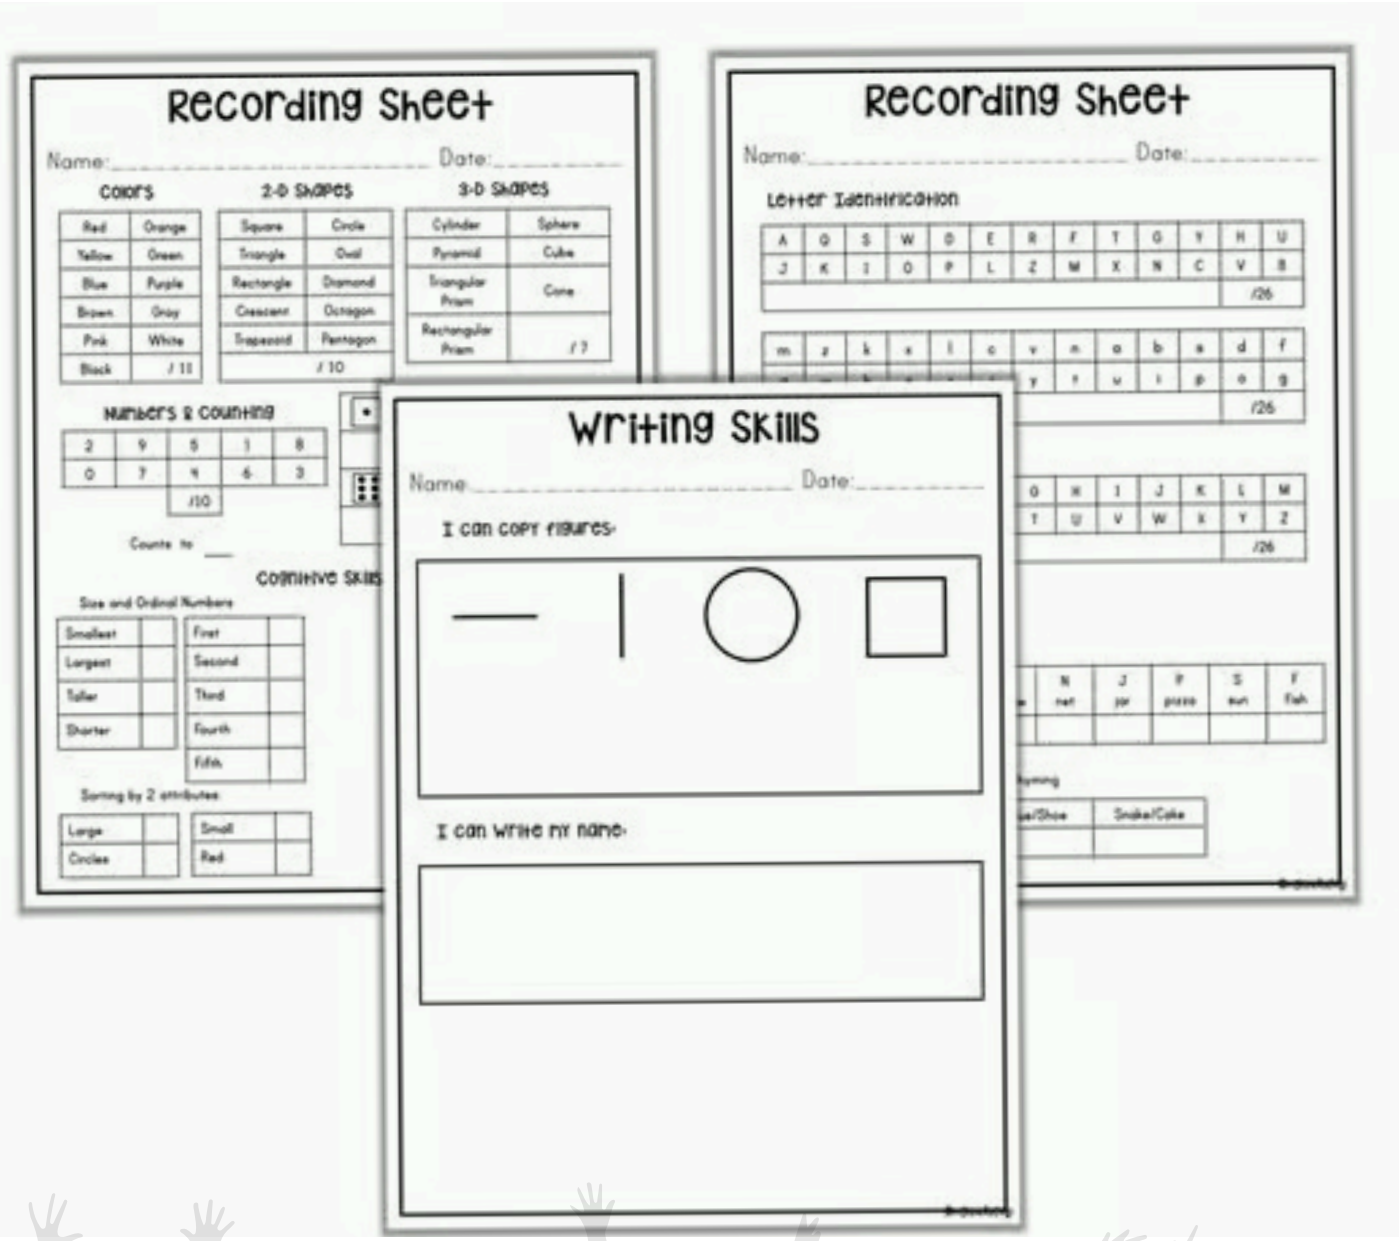
“I always find myself surprised and impressed with the variety of projects the kids work on when I meet with her teachers. They do an EXCELLENT job of coming up with creative ways to make learning fun!”

“Being my first child, I had no idea what to expect from a preschool program but have been pleasantly surprised by what the program provides. At parent teacher conferences, the teachers did a good job at explaining what they all do and provided visuals to show what and how they teach the class.”

“I love Siblings and Company Preschool and the teachers are great! Not only do they provide a learning environment for the children, they also still keep in mind that they are just kids and some days they need an extra hug or a few more cuddles to make it through the day. That is always a great feeling knowing that my child is being educated, well taken care of and essentially loved by his teachers.”

“I was blown away by the improvement my child has made. Kudos to the teachers for helping the children enjoy learning!”

Watch Us Grow!



Here are a couple pages from our Preschool Assessment. Our assessments cover areas everywhere from self-help skills to math concepts. The teachers preform the assessment 2 times a year and we hold parent-teacher conferences 2 times a year as well.

To plan for 2026-2027 school year, the first step is to touch base with our returning and future preschool families about plans for August. If you haven't thought about it yet or you're not even sure what questions to ask, let us know!

Yes, I plan on my child continuing their preschool education at Siblings & Company for the full day.

I plan for my child to attend a morning or afternoon program in addition to Siblings Pre-k for the alternate part of the day. This is a great option if your child can benefit from services the school districts provide such as speech and other services. In most cases the schools transport the child to and from our centers if it is in the same district.

I plan for my child to attend an alternate preschool program and no longer attend Siblings.

Please complete and return to your director by Friday, February 13th

F.A.Q.

How are the classes determined?

Each of our centers have 2 preschool classes. We aim to create a "1st Year" and "2nd Year" class, but it's a little like solving a puzzle every year! It all depends on how many kids are graduating and how many are joining. Don't worry, though, our curriculum is designed to meet kids where they are, so every child keeps growing, no matter their age.

Should I have my child screened by their future school district if I plan to keep them enrolled at Siblings & Co. Preschool?

Absolutely, yes! Even if you're sticking with us, screenings can connect your child with extra resources, give you a sneak peek into your school district, and help you prepare for the future. Bonus: If they qualify for the school program, transportation may be provided to and from our center, so they can still spend the rest of their day with us. (Double bonus!)

My child will be in Pre-K for a 3rd year because of their birthday—will they get bored?

We've seen kids thrive in their third year. Some take the opportunity to master skills and shine, while others enjoy a fresh mix of activities and peers. It's definitely something to chat about with your child's teacher to make sure we keep things exciting for them! It's also an option to look into spliting their day at the school district preschool!

Quick note: Private schools don't offer transportation, and buses only run within their district—e.g., Bartelso won't bus to Germantown.

Select your child's center and let us know your preschool thoughts!
